

TKA/d Crate grab with tipping device

Capacity 150 kg

The crate grab with tipping device is an absolutely safe unit, which not only securely transports stacking boxes, but can empty them in mid-air as well.

The crate grab is very robust but still very easy to operate and complies with the relevant standards and EC directives.

A safety lever system prevents the accidental opening of the grab.

The clamping jaws tightly grab under the rim of the crate without damaging the crate. To engage the tipping motion in order to empty the crate, the safety lock must be manually unlocked. The tipping motion is limited to 120°. This prevents the crate from flipping completely over while emptying, thereby reducing the risk of injury.

Optional

- Grabs for other sizes of crates.

INFO

Please provide the crate dimensions or a sample crate when ordering.

Technical data TKA/d

Model	Art.-No.	Capacity kg	Weight kg
TKA 0,15/330d	N52123220	150	25.8
TKA 0,15/480d	N52123225	150	26.0

Dimensions TKA/d

Model	TKA 0,15/330d	TKA 0,15/480d
