

Screwdriver Spindles electric

MINIMAT-EC-Servo Screwdriver Spindles

Maximum Flexibility and Process Control

Straight Spindle Form - Torque range from 0.2 Nm - 500 Nm

Angle Head Design - Torque range from 5 Nm - 70 Nm

- powerful
- flexible
- high precision
- full documentation capability

MINIMAT-EC-Servo screwdriver spindles in connection with the sequence controller AST40 allow free programming of the screw tightening process and offer maximum flexibility, accuracy and process control. Torque, speed, angle, drive direction and sequence delay times can be customized to the individual screwdriving task within the power range of the selected screwdriver spindle.

The integrated torque and angle sensor module employs non contact signal transmission techniques and enables precise control of the screwdriving process as well as the documentation of the screwdriving results and process parameters and also guarantees the highest shut-off accuracy.

The EC-Servo screwdriver is suitable for applications with the most demanding quality requirements – where direct measurement and control methods are required.

EC-Servo Screwdriver Spindle

4 available sizes
in straight spindle design

ADVANTAGES EC-SERVO SCREWDRIVING SYSTEM

- High power density
- High shut-off accuracy
- Flexible
- Noise immunity
- Comprehensive documentation options
- System diagnostics
- Extensive integration and control options

The application of a brushless servomotor with high power density is essential to the maintenance free operation of the EC drive. It also delivers excellent dynamics and high peak torque in a compact form – ideally suited to the screw tightening process.

Torque accuracies of < 1% standard deviation and thus Cmk values of ≥ 1.67 with a tolerance of $\pm 5\%$ can be reached * with MINIMAT-EC-Servo stationary screwdrivers. Statistically speaking, the error rate is less than 0.6 per one million screw assemblies.

*) under suitable process conditions

The screwdriving system consists of the **EC screwdriver spindle**, **AST40 screwdriver sequence controller** and a single **connection cable** that has been tested for extreme loading conditions. The single connection cable services the power and signal transmission functions between the screwdriver and controller using digital technology as most suitable for longer cable lengths.

DEPRAG SCREWDRIVING CONTROLLER AST40/ASTi40

- Torque range: 0.2 - 500 Nm
- For MINIMAT-EC-SERVO screwdriver spindles
- Number of multi-level screw sequences: 120
- Documentation options: internal storage, output via RS232 or Ethernet, printer interface
- PLC interface: input/output, Profibus, Profinet, EtherCAT, EthernetIP

The sequence controller AST40/ASTi40 is a controller with integrated power supply. Within the performance range of each spindle torque, speed, waiting period and rotational direction can be individually customized to the screw assembly task.

Extensive programming, control and documentation interfaces offer maximum flexibility for integration into existing process environments. Several communication options include input/output, various field bus interface options and an integrated web server for online screwdriver program configuration, data backup and screwdriver graph analysis via Ethernet.

All common screw assembly sequence programs are embedded in the AST40 screwdriver controller in the form of commands with parameters. Commissioning of an application can be completed in just a few steps. All required programming and setup functions are made available through the web interface so that no additional software is required, only a PC with a browser.

When choosing the option ASTi40 for integration into the switch cabinet, the software panel DAST is required for operation and visualisation of the controller. In that case the system controller additionally provides the range of functions available on the AST40 display.

Size 36 available in
angle head design

For assembly in confined spaces.

AST40 with 7" touch display

ASTi40 for installation
into a switch cabinet

DEPRAG GraphViewer Cloud (integrated in myDEPRAG - separate licensing as individual software is no longer necessary). Use the advantages of GraphViewer Cloud now exclusively via myDEPRAG. To use it, you only need one Gold license per user.

DEPRAG Cockpit Cloud (integrated in myDEPRAG). Use the advantages of Cockpit Cloud now exclusively via myDEPRAG.

For more details to the software products, please see product catalog D3900E.

Our software solutions undergo continuous improvements. We recommend that you regularly update your software. In this way you will always receive the most up-to-date security updates, upgraded features and drivers. With the most current version of the software you can be sure that your device is optimally prepared for Industry 4.0.

COMPONENTS for the use in manual work stations - also in connection with feeder

Handle in line with spindle with quick change chuck

For EC-Servo screwdriver spindles		311E27-xxxx	311E36-0150	311E36-0300 311E36-0500
Handle	Part no.	425800A	425900A	425900B
	Internal hex. drive DIN ISO 1173	F6.3	F6.3	F11.2

Handle in line with spindle with vacuum connection

For EC-Servo screwdriver spindles		311E27-xxxx	311E36-0150	311E36-0300 311E36-0500
Handle	Part no.	425800E	425900F	425900G
	Internal hex. drive DIN ISO 1173	F6.3	F6.3	F11.2

Handle in line with spindle with integrated mouthpiece guide for the use in connection with an automatic feeder

For EC-Servo screwdriver spindles		311E27-xxxx	311E36-0150
Handle, Length of stroke 80 mm	Part no.	4258001B	425900C
Handle, Length of stroke 100 mm	Part no.	4258001C	425900D
Handle, Length of stroke 120 mm	Part no.	4258001D	425900E

Handle at side of spindle

For EC-Servo screwdriver spindles		311E36-xxxx/311E42-xxxx
Handle	Part no.	1029831A

All the handles have an LED status display (OK/NOT OK), an ergonomic start lever and an additional button for reversal or to start a screwdriving program. Operating elements can be adapted to a specific application by selecting the operating mode. In this way for example the tool can be pre-programmed so that a second screwdriving program can be started directly by pressing the switch (e.g. a loosening program). Alternatively the mode can be selected so that the button is used for the pre-selection of the screwdriving program started via lever.

Required Accessories

For EC-Servo screwdriver spindles		311E	311E27-xxxx	311E36-xxxx	311E42-xxxx
Weight of the screwdriver spindle			1.2 kg/2.64 lbs	2.8 kg/6.16 lbs	4.2 kg/9.24 lbs
Linear stand	Part no.		408010A	408010B	408010C
for torque reaction up to	Nm/in.lbs		20/177	50/443	150/1328
Weight of the horizontal arm	kg/lbs		2/4.4	6.7/14.74	13.7/30.14
Screwdriver adapter for the attachment to a linear stand with handle in line with spindle	Part. no.		4008333C	4008333B	-
Screwdriver adapter for the attachment to a linear stand with handle parallel to the spindle	Part. no.		-	133162A	102982A
Connection cable to AST40	Part. no.		385584A	385584A	385584A
Connection cable to PLC	Part. no.		385584B	385584B	385584B

The suitable linear stands and balancers can be found in our product catalog D3345E. In order to select the appropriate balancer please consider the weight of the horizontal arm, the weight of the screwdriver and additionally a mass of 1 kg for the screwdriver adapter and the handle. To split the weight we highly recommend to use 2 balancers.

Screwdriver adapter 102982A/133162A

Optional accessories for EC-Servo screwdriver spindles		311E27-xxxx	311E36-xxxx
Turn fixture	Part no.	917333A	on request
The rotary unit is integrated between the screwdriver adaptor and handle and enables rotation of the handle. Ergonomic handling is therefore guaranteed even on larger work surfaces.			
Please note: When using the rotary unit with the version of the handle with quick change chuck or vacuum connection the holder on the handle must be replaced by the holder part number 917695 which must be ordered separately.			
Support ring	Part no.	398704A	398704A
The support ring can not be used in connection with handle with integrated mouthpiece guide.			
Support ring suitable for handle with integrated mouthpiece guide	Part no.	398704C	398704C

Turn fixture 917333A

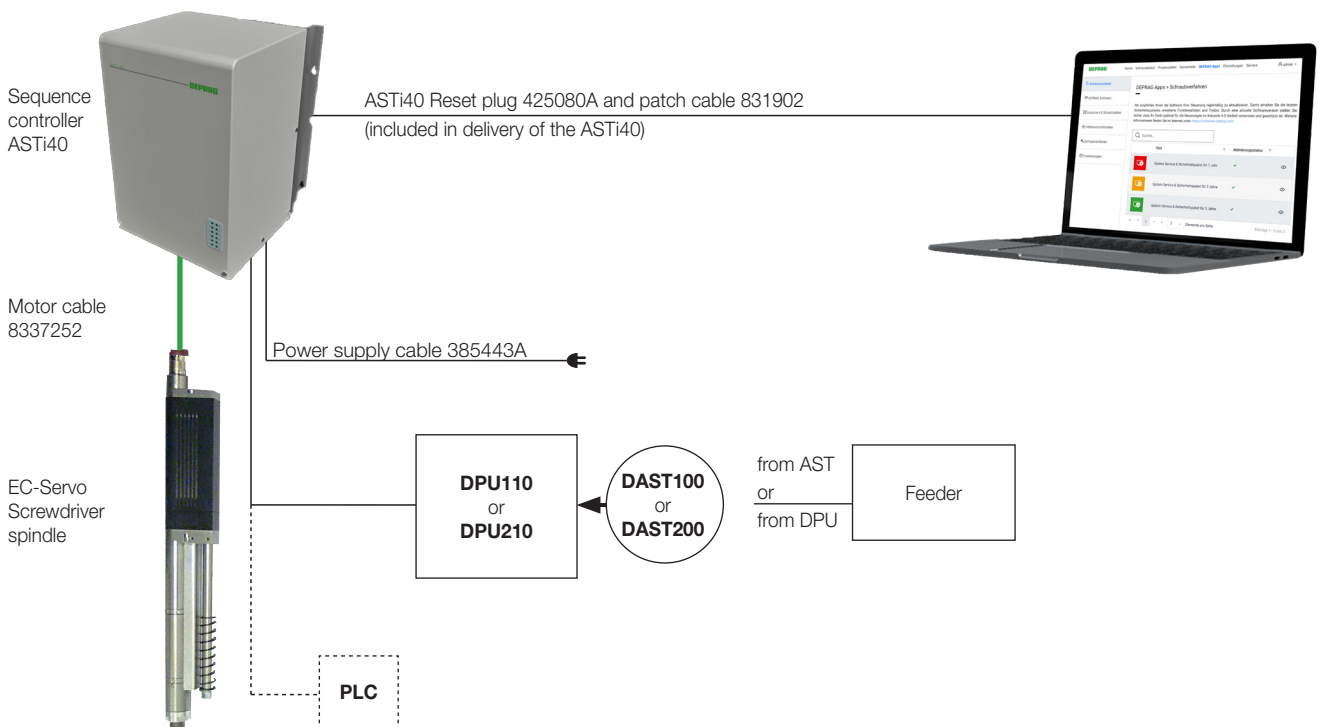

Support ring 398704A

Please note: when used as a handheld screwdriver only 3 screwdriving programs are available
